HEALTH SCIENTIST ADMINISTRATOR
Watch: What is a Program Director?

PROGRAM DIRECTORS

Cerebrovascular
Work to strengthen programs in the basic, translational, and clinical research of cerebrovascular biology, neurovascular unit, blood brain barrier and CNS drug delivery in health and disease. Manage a portfolio of research grants, cooperative agreements and/or contracts to support this area of neuroscience research.

Neuroinfectious diseases
Work to strengthen programs in the basic, translational, and clinical research of cerebrovascular biology, neurovascular unit, blood brain barrier and CNS drug delivery in health and disease. Manage a portfolio of research grants, cooperative agreements and/or contracts to support this area of neuroscience research.

Neurogenomics & Bioinformatics
Work to strengthen programs in neurogenomics including human genetics, epigenetics, transcriptomics, proteomics, and associated bioinformatics analyses. Manage a portfolio of research grants, cooperative agreements and/or contracts to support genomic studies of human neurological disorders.

SENIOR SCIENTIFIC PROJECT MANAGERS

Ultra-rare Gene-based Therapy
Support cooperative research developing gene-based therapies to treat ultra-rare diseases.

Biologics
Support cooperative research on biologics in the Blueprint Neurotherapeutics program.

HELPING TO END ADDICTION LONG-TERM℠ (HEAL) INITIATIVE

OFFICE DIRECTOR
Director, Office of Preclinical Pain Research
Lead and coordinate NINDS’s basic, preclinical therapeutic and translational pain research programs. Provide vision, direction, and oversight of trans-NIH Preclinical and Translational Pain research.

SENIOR SCIENTIFIC PROJECT MANAGERS

• Pre-Clinical Screening Platform for Pain
• Analgesics Development
• Pain Therapeutics Development

HEALTH PROGRAM SPECIALIST

• Analgesics Development
• Pain Preclinical Discovery and Early Translation

BRAIN RESEARCH THROUGH ADVANCING INNOVATIVE NEUROTECHNOLOGIES® (BRAIN) INITIATIVE

• Program Director - Therapeutic Devices
• Program Director – Neural circuit mapping
**HEALTH PROGRAM SPECIALIST**

_Watch: What is a Health Program Specialist?_

_Apply via USAJOBS (open December 6-12, 2021): Open to the public | Internal Merit Promotion_

Across NINDS, these individuals support, plan, coordinate, and screen proposed research projects relevant to subject matter areas. They assist with the design and detailed analysis of scientific and/or administrative factors affecting research program priorities, performance, and evaluation. They provide guidance to grantees on research objectives, requirements, and compliance.
